

# YOURSHARESPACE

The Intranet Solution for Your Small Business.

Helping garden centers manage the business side of their business.

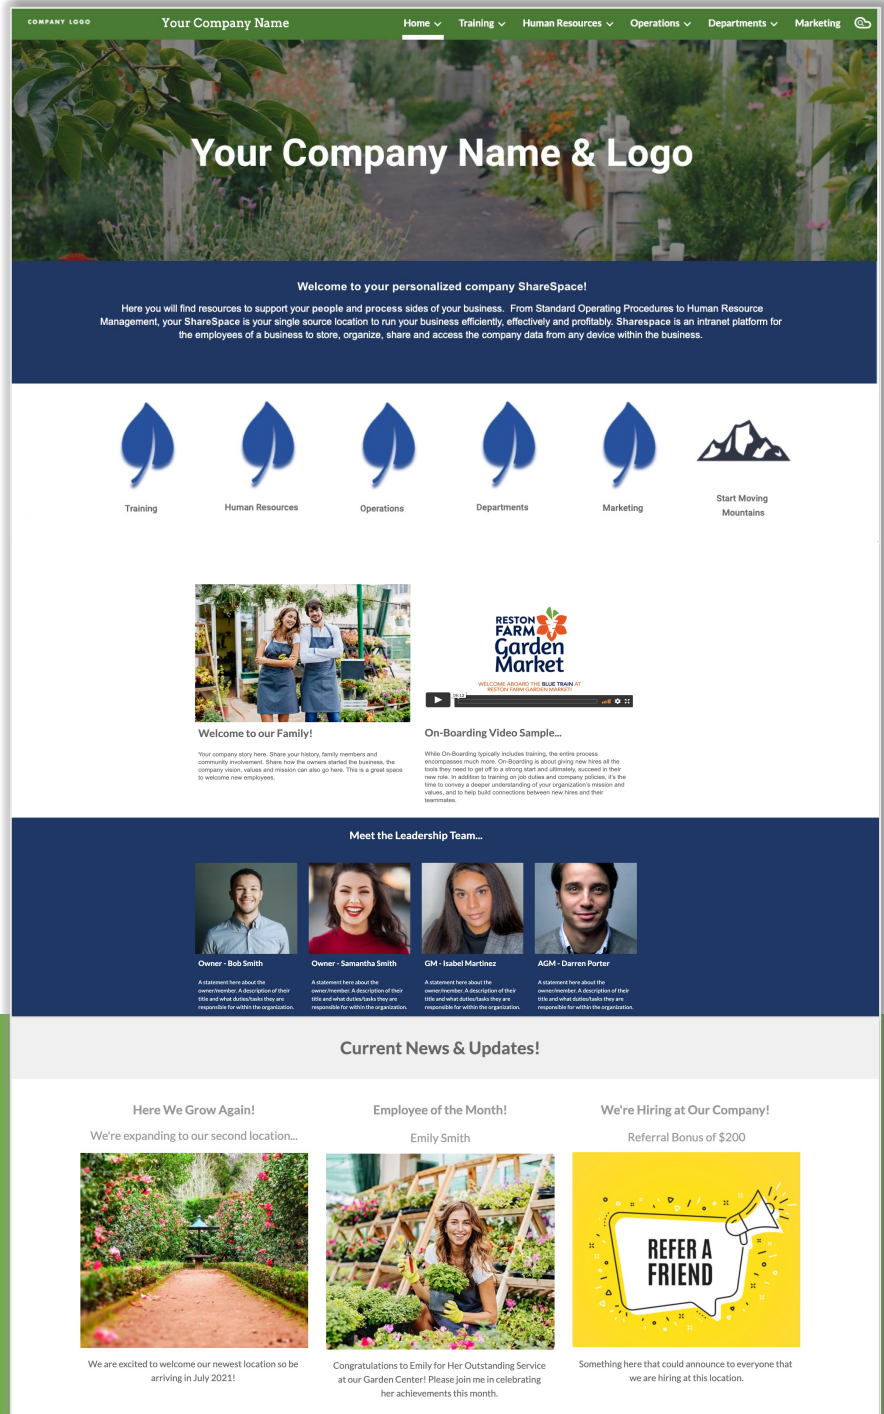

Every family-owned and operated small business should have access to the same tools and technologies that are utilized everyday in the corporate world!

And those systems and solutions should not have a big business price tag. A more manageable and affordable solution for small business is here.

Welcome to your company **ShareSpace**!

Here you will find resources to support your **people** and **process** sides of your business. From Standard Operating Procedures to Human Resource Management, your **ShareSpace** is your single source location to run your business efficiently, effectively and profitably.

**ShareSpace** is an intranet platform for the employees of a business to store, organize, share and access company updates and documents across any device within the business.
