

YOUR GROUP SPACE

The Intranet Solution for Your Small Business.

Every family-owned and operated small business should have access to the same tools and technologies that are utilized everyday in the corporate world!

And those systems and solutions should not have a big business price tag. A more manageable and affordable solution for small business is here.

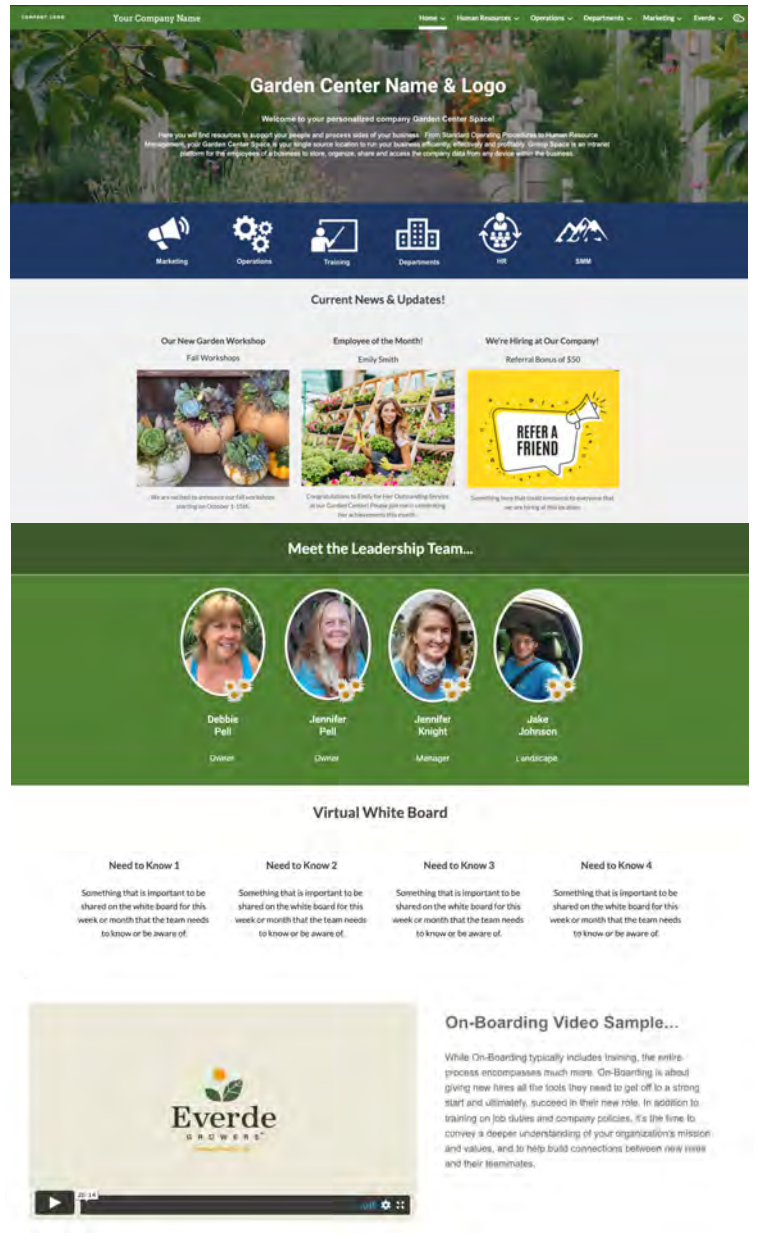

Welcome to your company **Group Space!**

Group Space is an intranet platform for the employees of a business to store, organize, share and access company updates, and documents across any device within the business.

With "One Touch" access to your Standard Operating Procedures, Training & On-Boarding Videos, Marketing, Strategic Plan, and Team Engagement, your **Group Space** is your single source location to run your business efficiently, effectively and profitably.

WELCOME TO CURBSIDE CONSULTING

Introducing the newest addition to the business improvement solutions created out of the WorkSpace of John Kennedy —Curbside Consulting!

A combined package of strategic planning, on-boarding video production and innovative digital solutions for your growing organization. A single-source platform to meet strategic initiatives creating a *roadmap for success* and a *culture of engagement*.

Step One: John Kennedy facilitates a one-day strategic planning program to set into motion your “Vision, Values and Volition” for your organization. Utilizing the “Start Moving Mountains” process, your organization embraces the *Mountain Goals* to conquer and the *Boulders and Rocks* to focus on to maximize the performance and accountability of your team.

Step Two: A digital “Group Space” platform is then created to house each and every outcome from the strategic plan (Mission, Values, Standards, Perfect Day Playbook, Work-In-Progress Board, Successful Meetings, Training Videos, Human Resources, Marketing, and Operational Excellence). No longer are employees searching for answers. Within seconds, they are connected to the company “Group Space” to communicate strategic initiatives efficiently and effectively across all departments within a customized company “intranet” site.

Step Three: Day two provides a professionally crafted, shot, edited and delivered “on-boarding” video that creates consistent messaging of the organizational values, vision, initiatives, and expectations for your new and existing workforce. This video is an important part of the overall on-boarding process that is created within the strategic plan on day one.

All of this is done on-location with Curbside Consulting for an affordable monthly investment. The outcome is a comprehensive program and platform to take your organization from good to great with a fresh digital approach to success, team engagement, alignment, training, on-boarding, accountability and communication.
